Important: Trips to Greenland are always subject to weather, fog and ice conditions. Therefore the sequence of the day tours and excursions in Greenland is subject to change, or if needed, an alternative excursion will be operated if available. In addition, delays and flight cancellations between Iceland and Greenland can happen. Therefore we strongly recommend you buy travel insurance in the country of residence to cover any additional travel expenses should your flights be delayed or cancelled due to weather. Finally, we recommend not to book any international flight directly after a trip from Greenland. Ideally, we recommend staying a minimum of two nights in Iceland after the Greenland trip to avoid the risk of missing an international flight.
